1987^{since}

CEMSAN

supplies state-of-the-art slaughtering and integrated meat processing facilities along with cold rooms and mobile slaughtering solutions. CEMSAN's latest manufacturing technologies include welding robots, sand blasting systems etc. CEMSAN has been designing, developing, manufacturing and establishing Automatic Slaughterhouse Systems since 1987. All of our systems are in accordance with the International Standards and have CE Certification.

Establishes hygienic and modern facilities for

The most **advanced** way of ritual slaughter

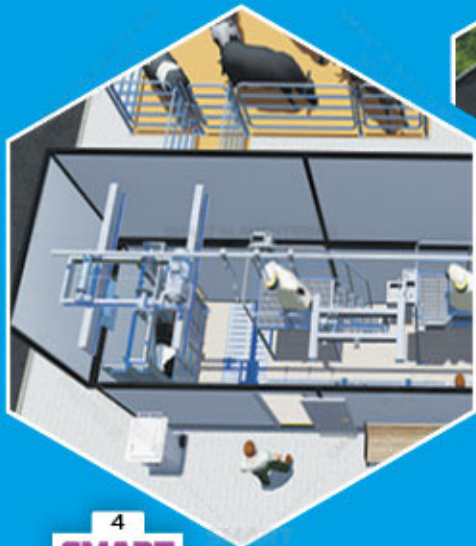

MULTI FUNCTIONAL MOBILE SLAUGHTERHOUSE

01

Main Advantages

30 cattle/day
60 sheep/day
40 pigs/day

- » Adjustable height allows slaughtering and processing of different kinds of animals like cattle, sheep, goat, pig, ostrich, crocodile, hunted animals etc.
- » Low investment and operation cost
- » Hygienic, clean and healthy slaughtering
- » Can be moved to any location easily
- » Stainless steel and pneumatic platforms
- » Strong main support chassis
- » Insulated sandwich panel walls
- » Long operating life
- » Functional slaughtering line
- » Waste water collection system
- » Easy transportation and quick set up

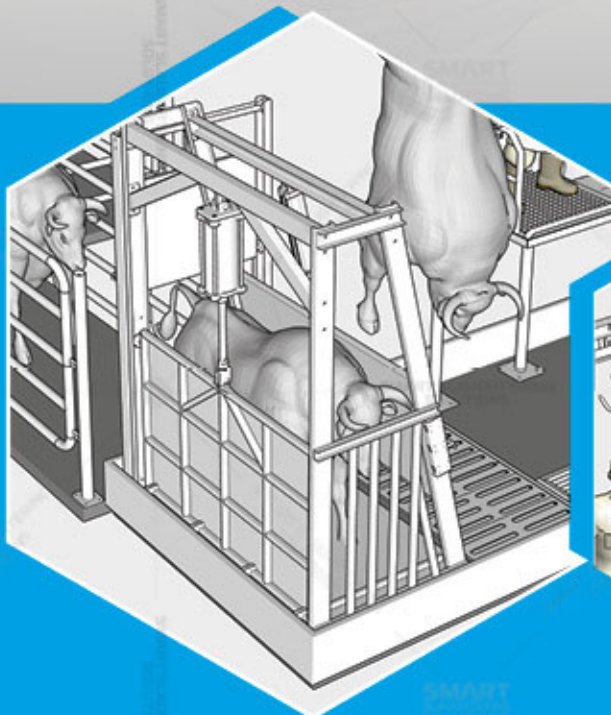

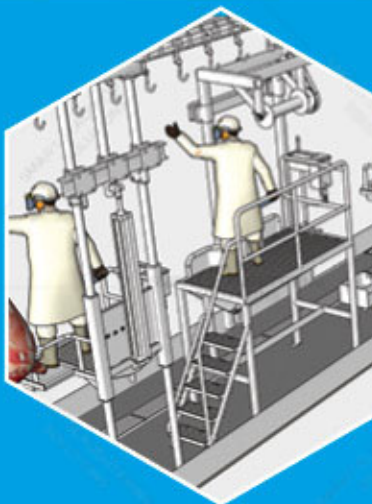

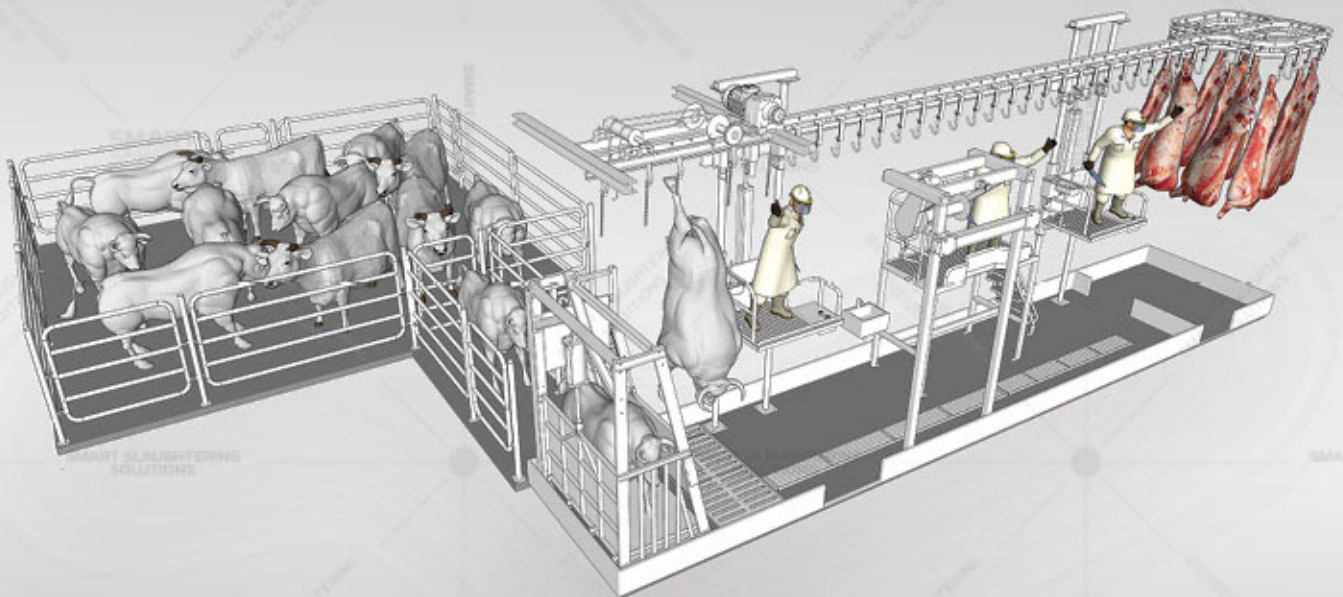

Main Equipment

- Stunning box
- Lifting hoist
- Slaughtering and processing rails
- Dehider
- Brisket opening and offal extracting platform
- Pneumatic carcass splitting platform
- Veterinary control platform
- Knife steriliser
- Washbasin

MULTI FUNCTIONAL MOBILE SLAUGHTERHOUSE

01

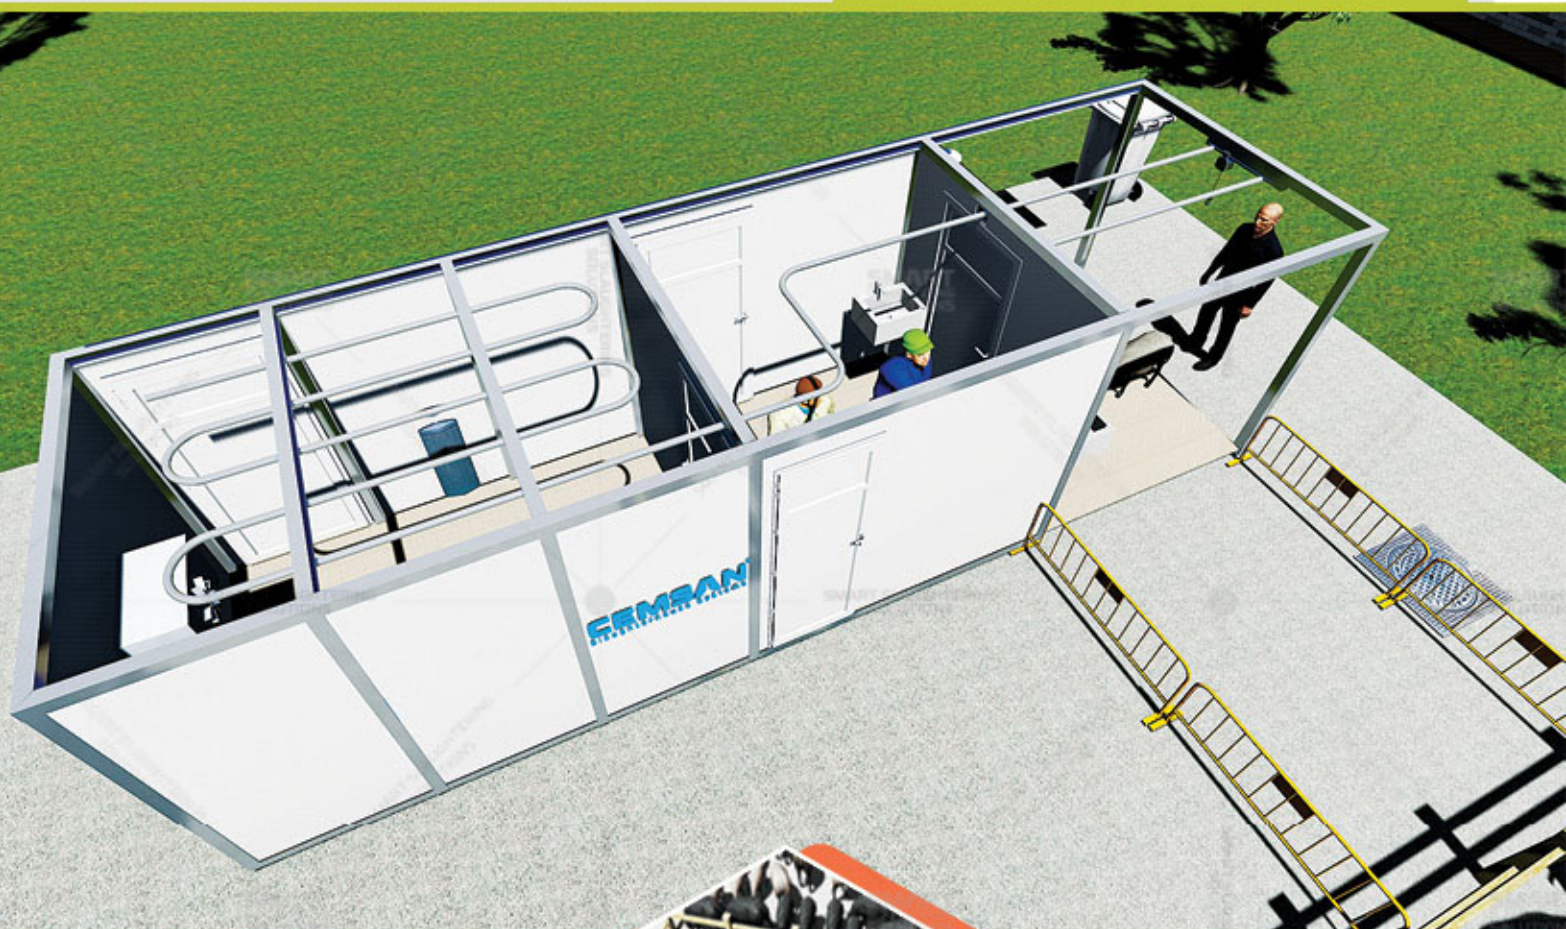

SHEEP MOBILE 02 SLAUGHTERHOUSE

Main Advantages

100 sheep/day

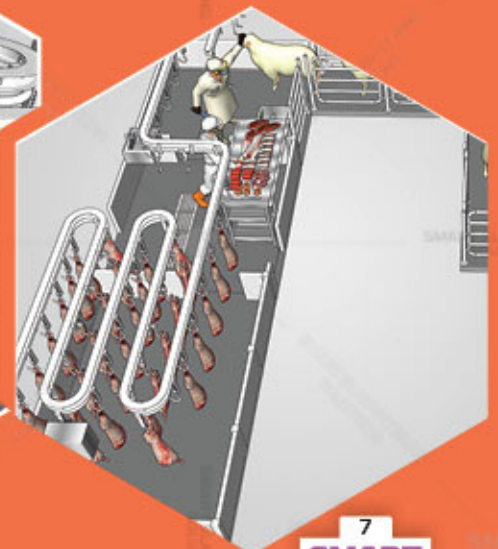

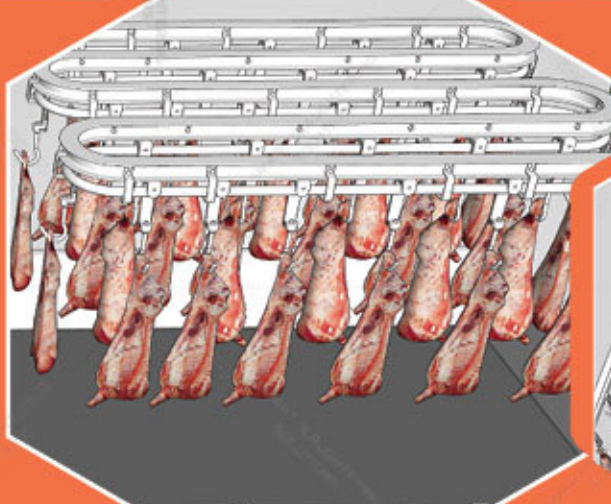

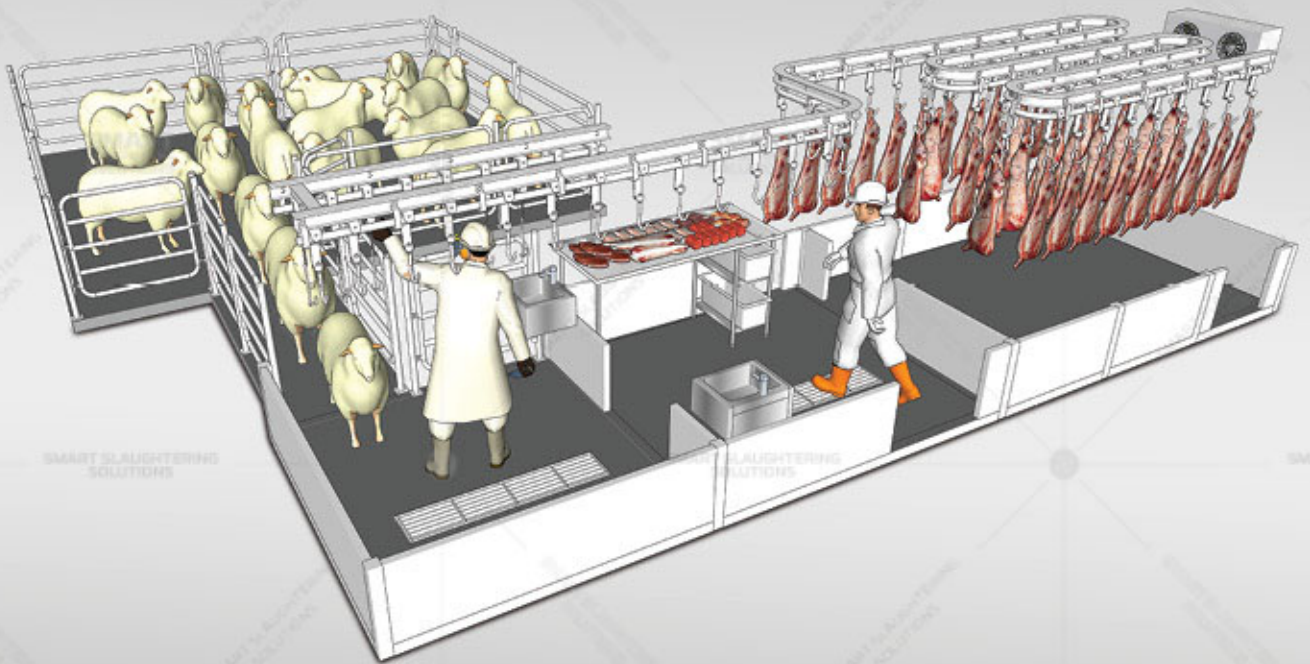

- » Low investment and operation cost
- » The capacity is 100 sheep/day
- » Hygienic, clean and healthy slaughtering
- » Different types of animals, similar to sheep in terms of size, can be slaughtered
- » Can be moved to any location easily
- » Strong main support chassis
- » Insulated sandwich panel walls
- » Long operating life
- » Functional slaughtering line
- » Waste water collection system
- » Easy transportation and quick set up

SHEEP MOBILE SLAUGHTERHOUSE 02

Main Equipment

- Sheep lifting hoist
- Slaughtering and processing rails
- Stainless steel tables
- Cold room
- Knife steriliser
- Washbasin

03

COMPACT SLAUGHTERHOUSE MODEL 1

Main Advantages

50 cattle/day
100 sheep/day
60 pigs/day

- » Low investment and operation cost,
- » The capacity is 20 Cattle & 60 Sheep/day
- » Hygienic, clean and healthy slaughtering,
- » Insulated sandwich panel walls,
- » Functional slaughtering line,
- » Waste water collection system,

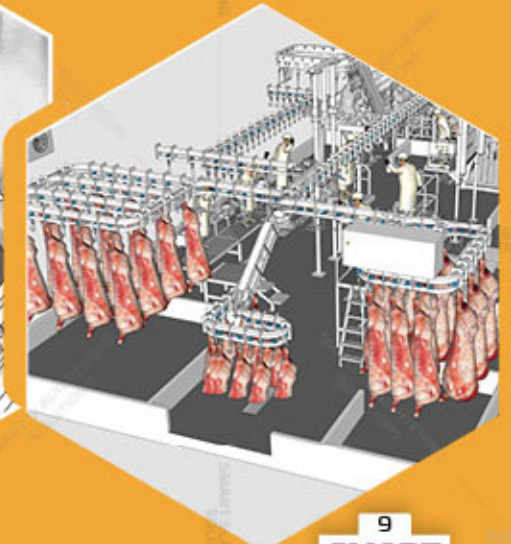

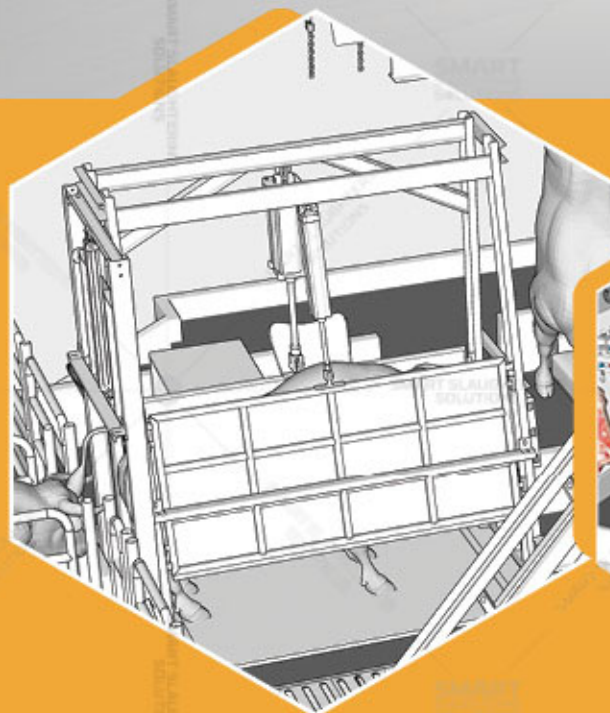

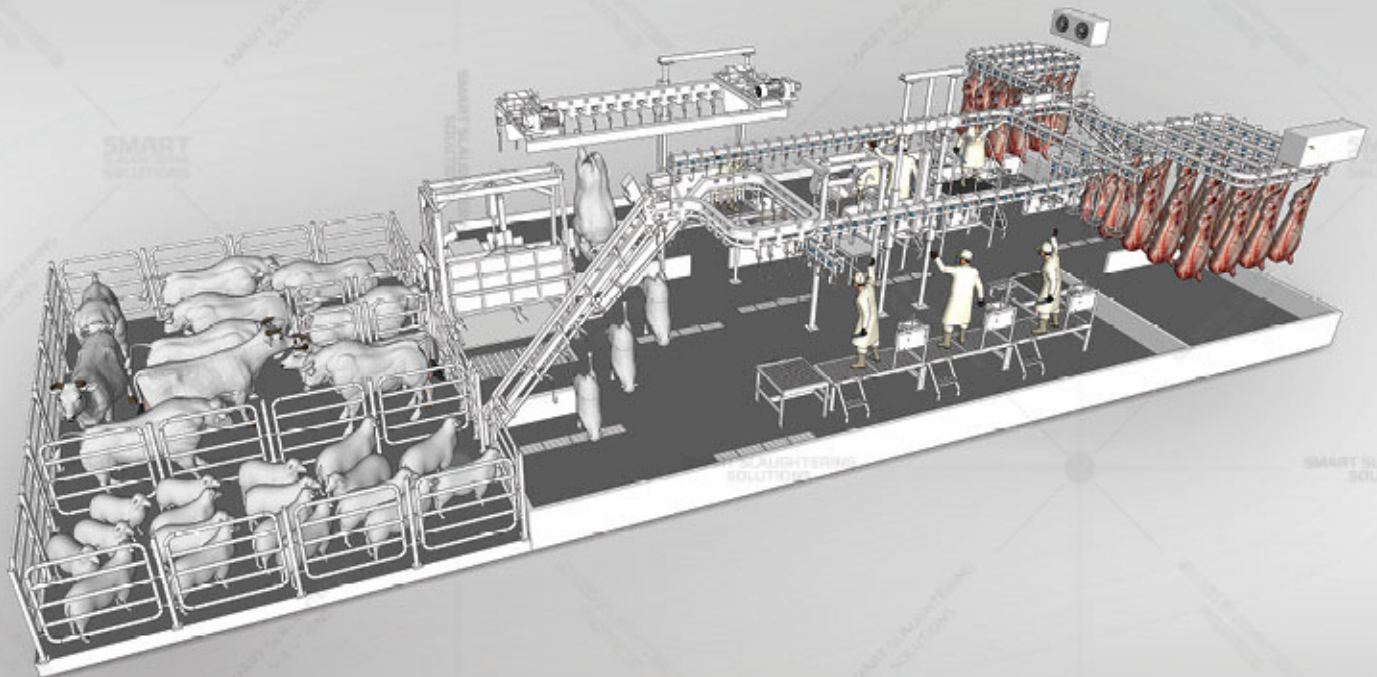

03

COMPACT SLAUGHTERHOUSE MODEL 1

Main Equipment

- Cattle and Sheep lifting hoist
- Slaughtering and processing rails
- Dehider; evisceration, carcass splitting platforms
- Veterinary inspection platform
- Two cold rooms
- Knife steriliser
- Washbasin

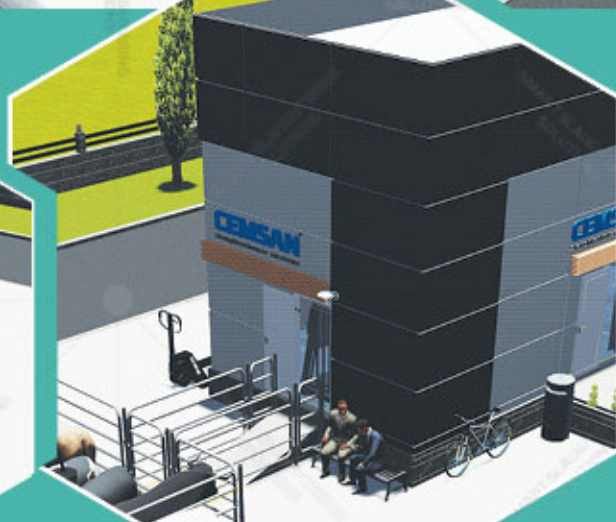

04

COMPACT SLAUGHTERHOUSE MODEL 2

Main Advantages

15 cattle/day
30 pigs/day

- » Low investment and operation cost,
- » The capacity is 10 Cattle/day
- » Hygienic, clean and healthy slaughtering,
- » Insulated sandwich panel walls,
- » Functional slaughtering line,
- » Waste water collection system

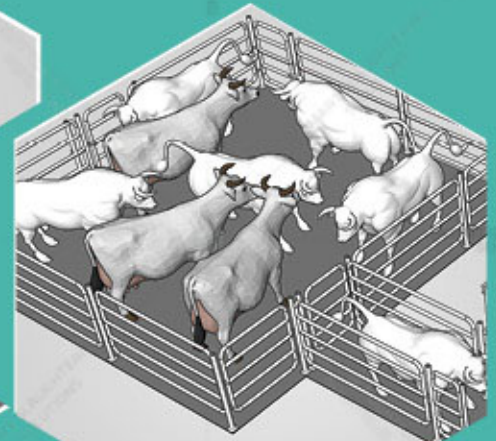

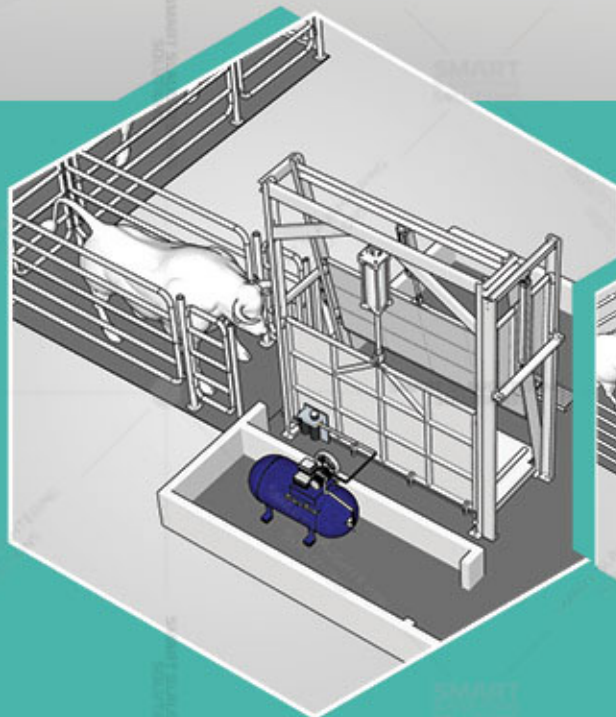

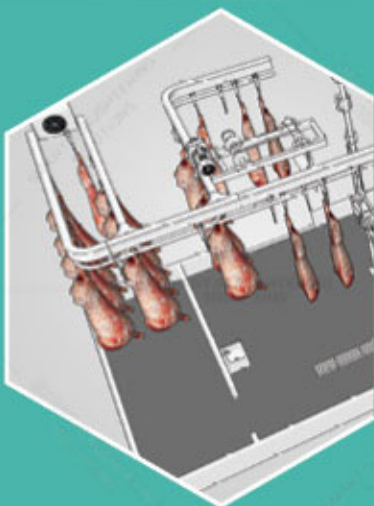

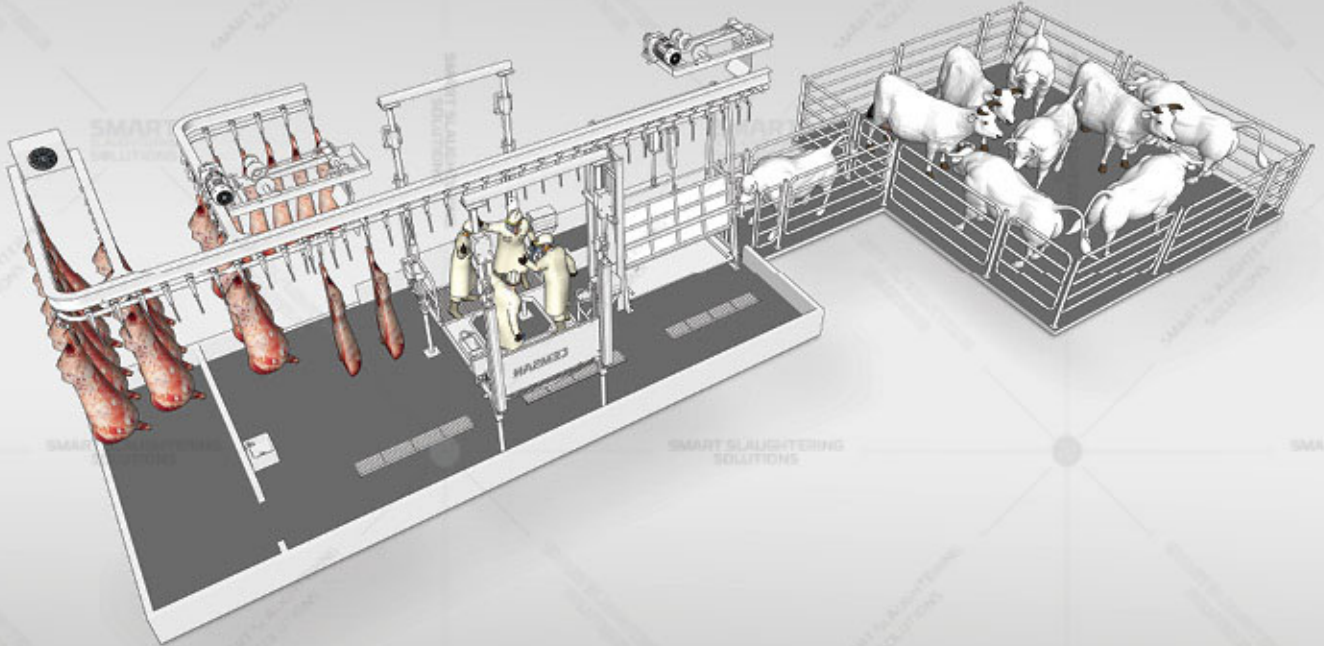

04

COMPACT SLAUGHTERHOUSE MODEL 2

Main Equipment

- Stunning box
- Cattle lifting hoist
- Slaughtering and processing rails
- Double surrounding pneumatic platform
- Knife steriliser
- Washbasin
- Cold room

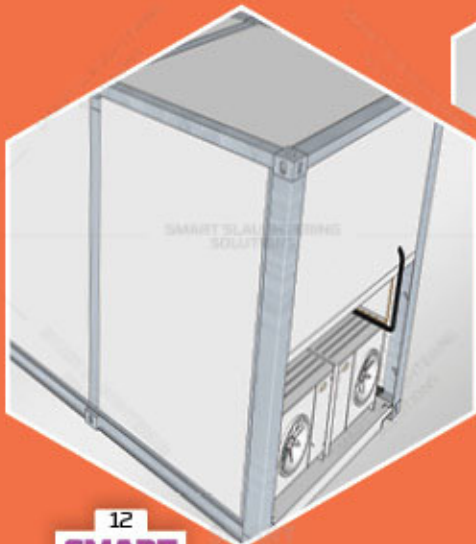

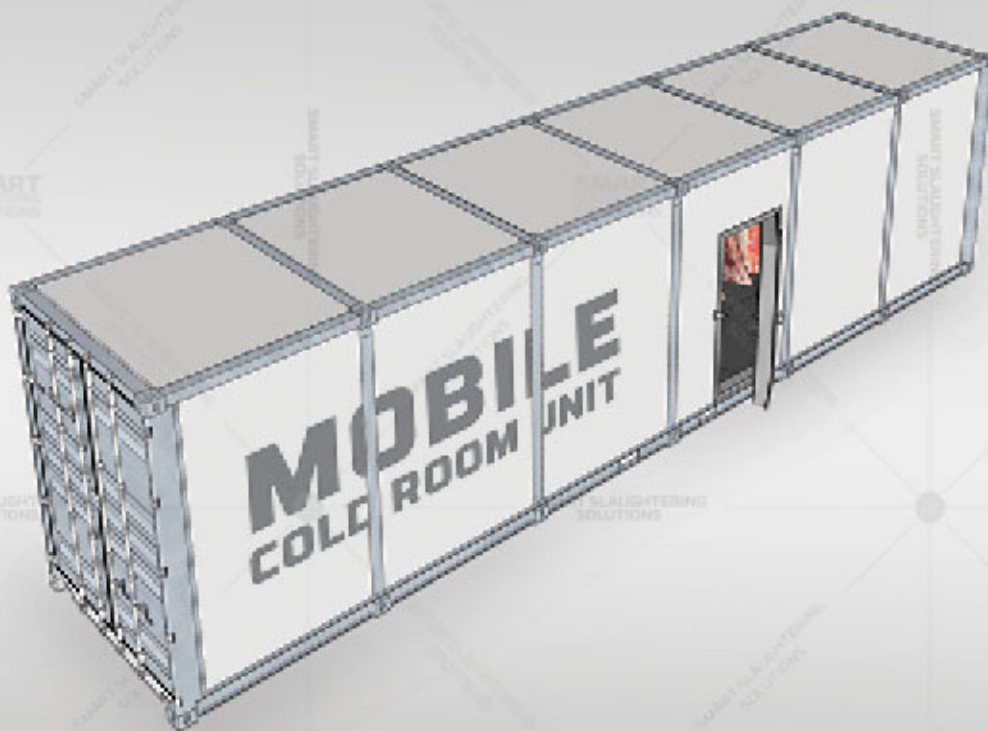

MOBILE 05 COLD ROOM UNIT

Main Advantages

Cold Room Capacity
75 Cattle Quarter Carcass
100 Pig Half Carcass
150 Sheep Carcass

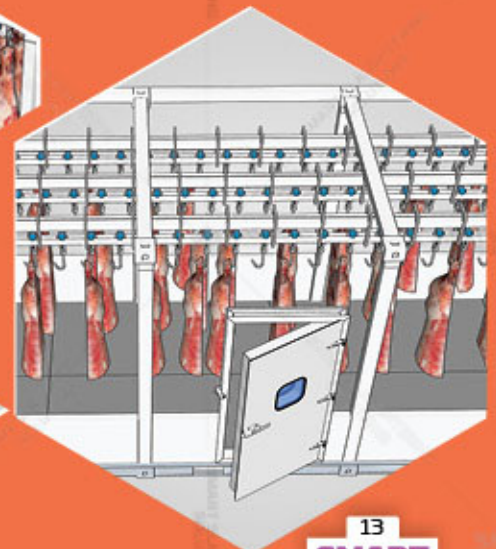

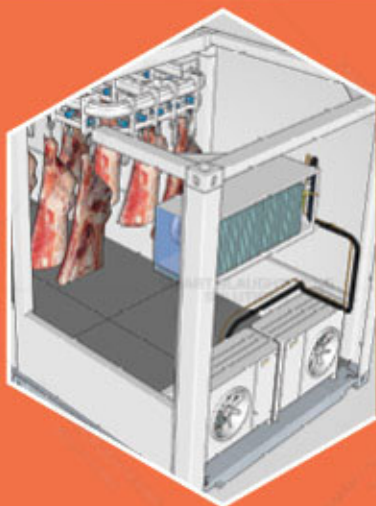

- › Practical and functional storage via mobility
- › Low investment and operation cost
- › Easy and safe circulation with twinrail lines
- › Can store different types of animal carcasses
- › Can be moved to any location easily thus allowing strategic relocation when necessary
- › Strong main support chassis
- › Insulated sandwich panels and doors prevent heat, moisture and energy loss
- › Long operating life
- › Easy transportation and quick set up

MOBILE 05 COLD ROOM UNIT

Main Equipment

- Twinrail lines
- Meat hooks
- Cooling units
- Insulated panels
- Cold room doors

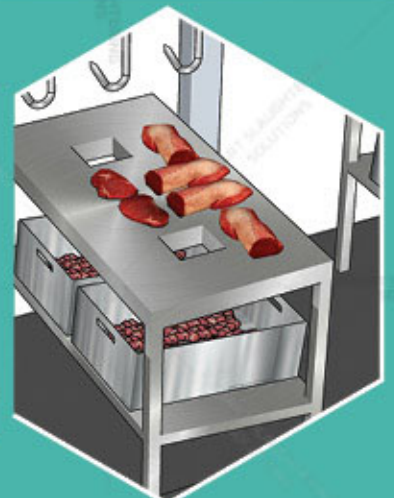

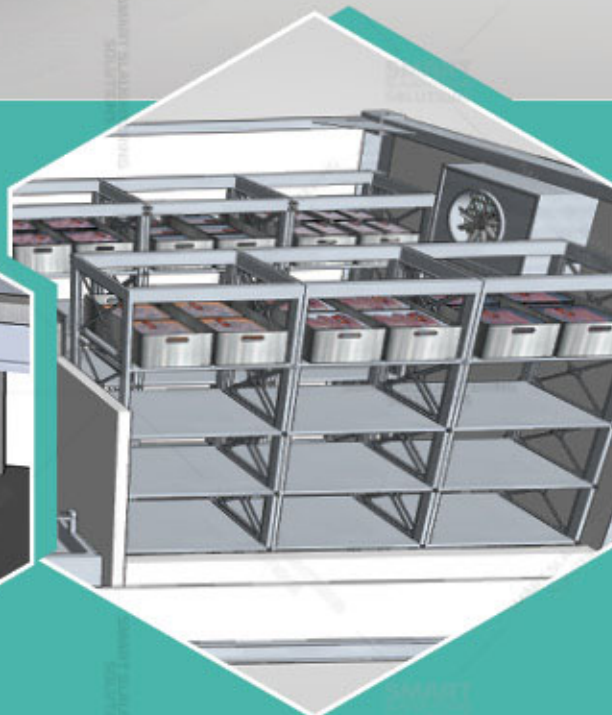

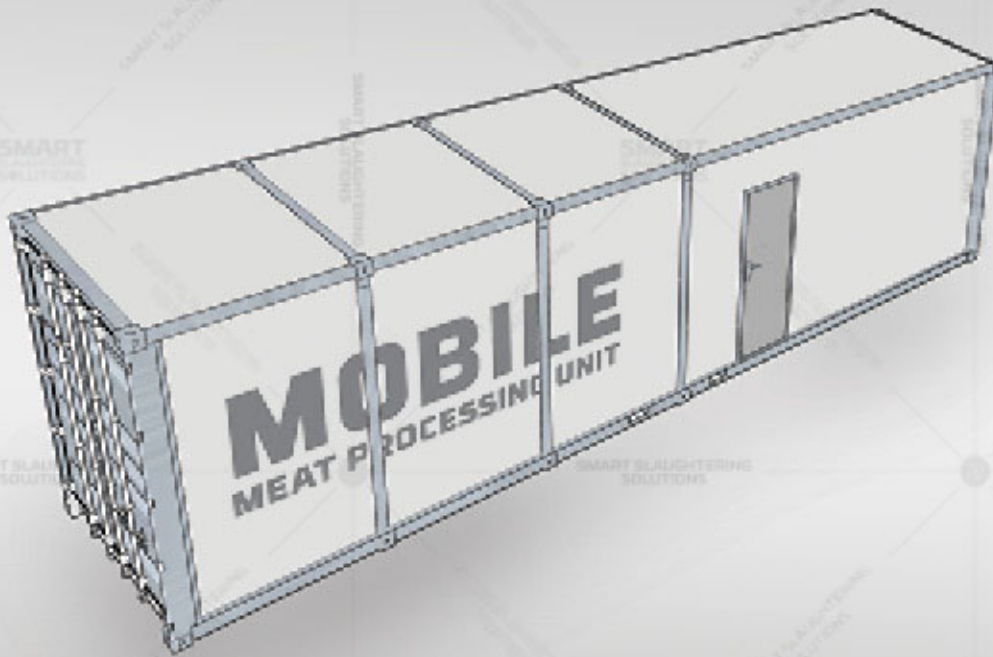

MOBILE 06 MEAT PROCESSING UNIT

Main Advantages

Cold Room Capacity
5 tons / day

- » Practical and functional processing via mobility
- » Low investment and operation cost,
- » Different types of animal carcass meats can be processed (cattle, sheep, pig, chicken, fish etc.)
- » Hygienic, clean and healthy meat processing
- » Sustainable cold chain and longer shelf life via air conditioning and packed meat cold room
- » Can be moved to any location easily thus allowing strategic relocation when necessary
- » Insulated sandwich panels and doors prevent heat, moisture and energy loss
- » Long operating life
- » Easy transportation and quick set up

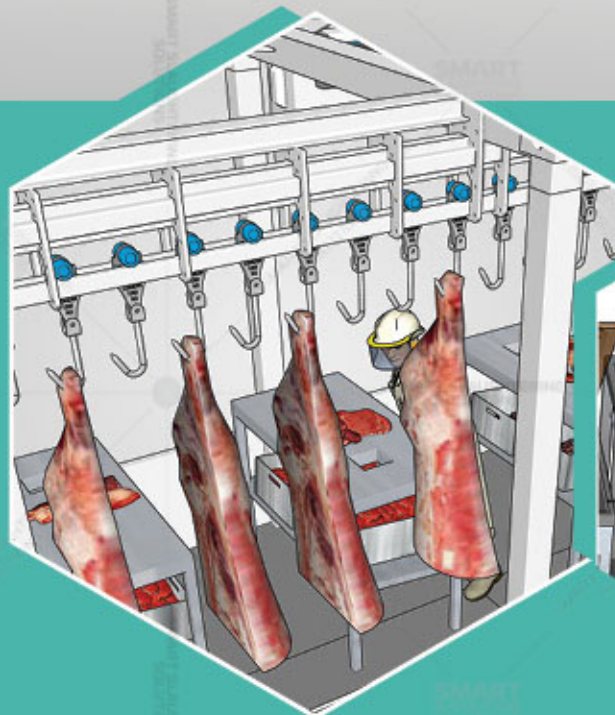

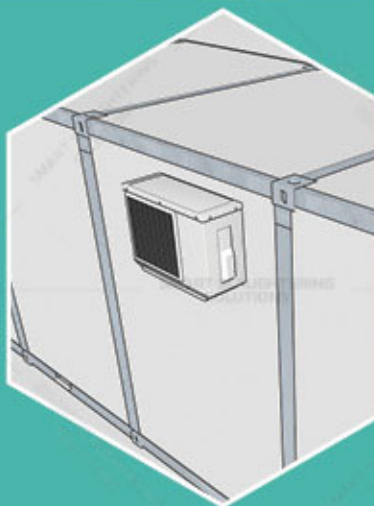

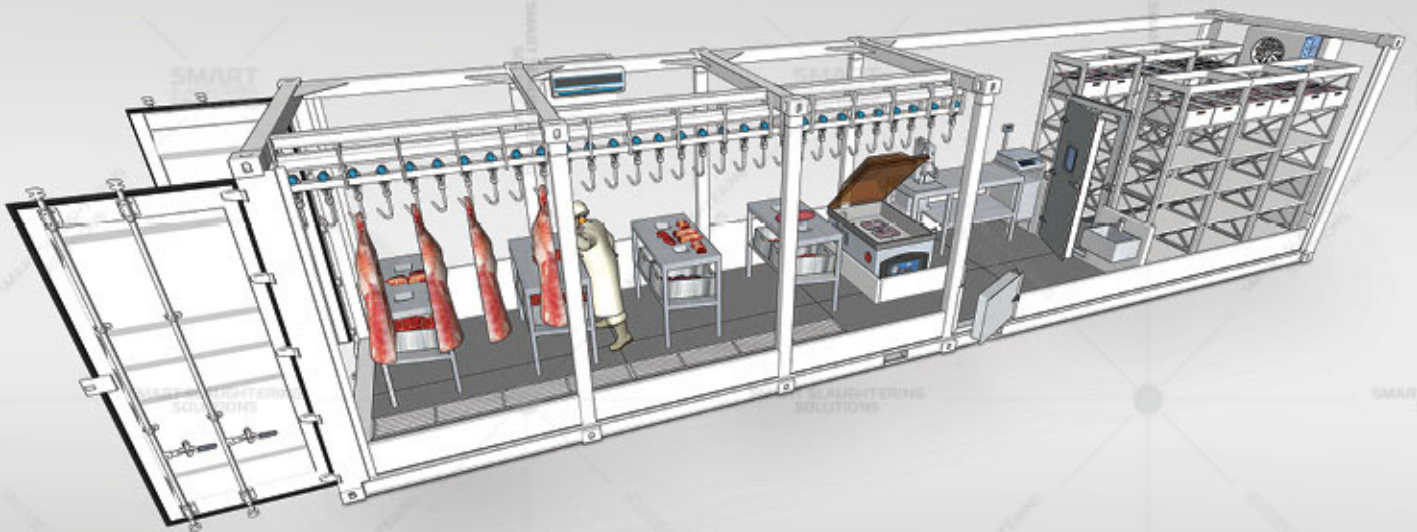

Main Equipment

- Meat processing tables
- Twinrail lines
- Meat hooks
- Packed meat cold room
- Cold room shelves
- Vacuum packing machine
- Packaging table and scale
- Floor channels and grids
- Washbasin
